Summary

Final-year BCA student with practical experience in full-stack web development using the MERN stack (MongoDB, Express.js, React.js, Node.js). Skilled in building responsive, user-focused web applications with clean and maintainable code. Eager to apply technical skills and contribute to real-world projects through a full-stack development internship in a growth-focused organization.

Education

Bachelor of Computer Applications (BCA)   **Expected: 2026**
Bharati Vidyapeeth, Institute of Management Studies, Navi Mumbai   *CGPA: 8.75*

Skills

- **Frontend:** HTML5, CSS3, JavaScript (ES6+), React.js, Bootstrap, Tailwind CSS
- **Backend:** Nodejs, Expressjs, REST API
- **Database:** MySQL, MongoDB
- **Tools & Platforms:** Git, GitHub, Postman, VS Code

Experience

Full Stack Web Development Intern - Plasmid Innovation   **May 2025 – July 2025**
Mumbai, India

- Assisted in developing frontend components using React.js and Tailwind CSS for internal modules
- Supported backend work by integrating simple REST APIs and helping with Node.js/Express testing
- Fixed UI bugs, improved layouts, and completed small tasks assigned by senior developers.
- Worked closely with the team, delivered paid tasks on time, and followed clean coding practices

Projects

HireMind – AI Job Portal

- **Description:** An AI-enhanced job portal with job search, filters, job-by-skill, chatbot, AI job summary, job posting, apply, save-for-later, resume and profile management
